

## **WCA OPIOID ABATEMENT SUMMIT**

### **Regionalized Group Discussion**

This session gives the attendees ample time to have discussions with neighboring counties on best practices, ideas, and collaboration. Please use this time as an opportunity to share concepts and efforts as it relates to partnering with and learning from other counties.

Please assign someone at your table to take notes and report out to the larger group at the end of this discussion.

Below are some sample questions to start the conversations:

- Describe where your county is at in the process: no decisions made, some, all the money is assigned, etc.
- Is your county doing joint opioid initiatives with neighboring counties?
- What are counties doing to prevent new opioid users?
- What are counties doing for harm reduction with current users?
- What are counties doing to support persons after treatment to avoid relapse?
- Discuss possible areas of collaboration or regionalized efforts that may be possible, even if they aren't probable.
